

SPRECTEX AI

Pioneer in Artificial Intelligence Solutions

PROJECT PROPOSAL

All-Sports AI Video Analytics & Intelligence Platform

Prepared For: **Valued Business Client**

Prepared By: **Spectex AI — Global AI Solutions Division**

June 2026 · 6 Weeks Delivery · Ready-to-Go Sports AI Product

TURN EVERY MATCH INTO ACTIONABLE INTELLIGENCE

All Sports Covered

Football · Cricket · Basketball · Tennis · Volleyball · Hockey · Combat Sports · Athletics

01 | EXECUTIVE SUMMARY

Spectex AI is pleased to present this proposal for a **Ready-to-Go All-Sports AI Video Analytics & Intelligence Platform** — a complete solution that transforms match, training, and competition footage into structured performance intelligence.

The platform supports all major sports including football, cricket, basketball, tennis, volleyball, hockey, rugby, baseball, golf, athletics, swimming, combat sports, motorsports, esports, and more. It analyzes uploaded or connected video footage to detect players, balls, actions, events, formations, movement patterns, tactical moments, and performance trends through a professional sports dashboard.

Built for academies, clubs, leagues, federations, broadcasters, scouts, coaches, and sports-tech businesses, the system is delivered as a ready-to-go product within **six weeks**. It enables faster analysis, smarter coaching, objective performance review, and better decision-making across every sport.

All Sports	6 Weeks	AI-Powered	Ready-to-Go
Multi-Sport Coverage	Ready-to-Go Delivery	Video Intelligence	Sports Dashboard

02 | ABOUT SPRECTEX AI

Spectex AI is a globally operating Artificial Intelligence solutions firm, recognized as a pioneer in delivering enterprise-grade AI products across sports technology, video analytics, performance intelligence, automation, and data-driven decision systems.

Our team combines deep research with practical delivery to build systems that are reliable, scalable, and easy for your people to use. Organizations across multiple continents trust us for AI video analytics, sports intelligence, and automation — from academies and clubs to established enterprises.

OUR MISSION	OUR VISION
To democratize artificial intelligence by delivering powerful, accessible, and ethical AI solutions that transform industries and empower organizations globally.	To be the world's most trusted AI solutions partner — building tomorrow's intelligence infrastructure through relentless innovation and client-centric delivery.

CORE COMPETENCIES

Competency Area	Our Approach	Application
Sports Video Analytics	Automated event, player & action detection	Clubs, academies, leagues
Performance Intelligence	Movement, tactics & match pattern analysis	Coaches, analysts, scouts
Multi-Sport AI	Configurable models for different sports	Football, cricket, tennis, combat sports
Sports Dashboards	Interactive visual analytics & KPI reporting	Teams, broadcasters, federations
Secure Deployment	Cloud-hosted, scalable, access-controlled	Global enterprise availability

03 | OUR LEADERSHIP TEAM

Sprectex AI is led by a team that blends artificial-intelligence expertise, business leadership, and strategic governance — committed to delivering intelligent solutions that create real, measurable value for our clients.

Syeda Shamaim Fatima
Chief Executive Officer

Muhammad Danish Khan
Chief Artificial Intelligence Officer

Muhammad Osama
Board Member & Director

LEADERSHIP & GOVERNANCE

Leader	Role	Area of Responsibility
Syeda Shamaim Fatima	Chief Executive Officer	Overall vision, client partnerships, and company strategy
Muhammad Danish Khan	Chief Artificial Intelligence Officer	AI research, sports video analytics engines, and technical delivery
Muhammad Osama	Board Member & Director	Corporate governance, oversight, and strategic direction

04 | PROJECT OVERVIEW & SCOPE

Sports teams and organizations generate huge volumes of match, practice, scouting, and competition video. Most of this footage is still reviewed manually, which makes analysis slow, inconsistent, expensive, and difficult to scale across teams, athletes, and competitions.

Spectex AI delivers a ready-to-go all-sports AI video analytics platform that processes footage, identifies key sporting events, tracks players and objects, highlights performance moments, and turns video into tactical and performance intelligence.

This solution directly addresses three core challenges:

- **Manual Video Review Bottleneck:** Hours of match and training footage reviewed manually — now automated with AI event detection, tagging, and highlight extraction.
- **Lack of Objective Performance Data:** Coaching decisions often rely on observation alone — the system converts video into measurable player, team, and tactical metrics.
- **Multi-Sport Scaling Challenge:** Different sports require different analysis views — the platform is configurable for football, cricket, basketball, tennis, combat sports, and more.

PROJECT SCOPE BOUNDARIES

IN SCOPE	OUT OF SCOPE
AI video upload, processing & analysis pipeline	Camera hardware procurement or stadium installation
Player, object, action & event detection	Live broadcast production services
Sports-specific dashboards and KPI views	Official league data licensing or rights acquisition
Automated highlights, tags, clips & reports	Manual annotation of historic archives beyond agreed scope
Multi-sport configuration and templates	Third-party platform integrations beyond agreed scope
Coach, analyst, scout and admin roles	—
Performance, tactical and match analytics	—
Ready-to-go deployment and handover	—

05 | SOLUTION ARCHITECTURE & METHODOLOGY

The solution is built as a modular, scalable sports intelligence platform. Each layer works independently yet connects seamlessly. The design follows three clear stages: **Video Ingestion**, **AI Sports Analytics Engine**, and **Sports Dashboard & Reporting**.

LAYER	COMPONENT	METHOD	FUNCTION
Video Ingestion	Video Upload & Library	Automated validation	Accepts match, training, scouting, and competition footage; organizes videos by sport and team
Video Ingestion	Sports Data Store	Secure structured storage	Maintains video metadata, tags, events, players, teams, and generated analytics
AI Sports Engine	Player & Object Detection	AI visual recognition	Detects players, balls, equipment, zones, and key objects depending on sport
AI Sports Engine	Action & Event Recognition	AI sequence analysis	Identifies goals, shots, passes, wickets, serves, tackles, rallies, fouls, strikes, and more
AI Sports Engine	Tracking & Movement Engine	Automated tracking	Tracks movement, positioning, speed, distance, formations, and tactical patterns
AI Sports Engine	Highlight Generator	Automated clipping	Creates tagged clips, highlights, and key-moment timelines for review
AI Sports Engine	Multi-Sport Configuration	Sport-specific templates	Adapts rules, metrics, and dashboards for different sports and competition types
Dashboard & Reporting	Secure Access Layer	Role-based delivery	Delivers analytics to coaches, analysts, scouts, athletes, and administrators
Dashboard & Reporting	Sports Dashboard	Visual analytics	Performance, tactical, scouting, and match views with refreshable analytics
Dashboard & Reporting	Report & Export Engine	Automated output	Produces video reports, athlete summaries, team analysis, and shareable clips

06 | AI VIDEO ANALYTICS ENGINE

MULTI-SPORT VIDEO INTELLIGENCE

The AI Video Analytics Engine processes match and training footage to detect players, balls, equipment, actions, formations, events, and performance moments. It is configurable across sports, allowing the same ready-to-go platform to support football, cricket, basketball, tennis, volleyball, hockey, rugby, baseball, golf, athletics, swimming, boxing, MMA, wrestling, motorsports, esports, and more.

- **Player & Object Detection:** Detects athletes, balls, equipment, court/field zones, and key objects
- **Action Recognition:** Identifies passes, shots, tackles, serves, rallies, wickets, goals, strikes, and sport-specific events
- **Movement Tracking:** Tracks player movement, positioning, spacing, speed, distance, and tactical shape
- **Automated Highlights:** Creates tagged clips and key-moment timelines from match or training video
- **Performance Metrics:** Generates athlete, team, tactical, and event-based KPIs
- **All-Sports Adaptability:** Sport-specific templates for team sports, individual sports, combat sports, racing, and esports

SPORTS COVERAGE & ANALYTICS OUTPUT

The platform is designed to serve coaches, analysts, academies, scouts, broadcasters, sports federations, and performance departments. Each sport receives relevant metrics, event tags, visual dashboards, and clips so technical teams can review performance quickly and objectively.

Capability	Methodology	Output
Team Sports	Football, cricket, basketball, hockey, rugby, volleyball	Team tactics, formations, possession, events
Racket Sports	Tennis, badminton, squash, table tennis	Rallies, serves, shot patterns, court zones
Combat Sports	Boxing, MMA, wrestling, martial arts	Strikes, grappling sequences, timing, aggression
Individual Sports	Golf, athletics, swimming, gymnastics	Technique, timing, movement, attempts, scoring moments
Racing & Motorsports	Motorsport, cycling, running events	Lap analysis, pace, incidents, position changes
Esports & Indoor Sports	Esports, futsal, indoor competitions	Events, rounds, highlights, team performance

07 | SPORTS INTELLIGENCE DASHBOARD MODULES

The Sports Intelligence Dashboard is the single control center for video review, performance analysis, tactical insight, scouting, highlights, and reporting. It gives coaches, analysts, scouts, athletes, and administrators a polished workspace for turning footage into decisions.

Video Library & Upload Module

- Bulk upload for match, training, scouting, and competition footage
- Sport, team, player, date, tournament, and session tagging
- Processing queue with status tracking
- Secure video storage and role-based access
- Searchable archive for clips, matches, and training sessions

Match & Event Analytics

- Automated event tagging by sport
- Goals, shots, passes, tackles, serves, rallies, wickets, strikes, fouls, and more
- Key-moment timeline and clip extraction
- Event frequency, success rate, and trend analysis
- Side-by-side comparison across matches or sessions

Player & Team Performance

- Player movement, positioning, speed, distance, and involvement
- Team shape, formations, transitions, spacing, and tactical phases
- Athlete-level performance cards
- Team-level performance summary
- Training vs match performance comparison

Scouting & Talent Evaluation

- Player profile and video evidence library
- Objective performance scoring and trend tracking
- Talent comparison across age groups, squads, and competitions
- Highlight reels for recruitment and selection
- Scout notes and evaluation workflow

Highlights, Reports & Sharing

- Automated highlight generation
- Downloadable clips and performance reports
- Coach, athlete, analyst, scout, and admin views

- Shareable review links and secure access
- Scheduled performance summaries for teams and leadership

08 | PERFORMANCE ANALYTICS & REPORTING

Analyze Every Sport with One Platform

Football, cricket, basketball, tennis, volleyball, hockey, rugby, baseball, golf, athletics, swimming, combat sports, motorsports, esports, and more — all supported through configurable sports analytics templates.

Turn Video into Coaching Decisions

Automatically detect events, generate highlights, track athlete and team performance, compare sessions, and create reports that coaches, scouts, analysts, and leadership can act on immediately.

Beyond video processing, the system turns sports footage into actionable performance intelligence — helping teams understand what happened, why it happened, and how athletes and teams can improve.

Dimension	Data Source	Output	Business Value
Match Events	Game footage	Goals, shots, passes, wickets, serves, fouls, strikes	Faster match review
Player Tracking	Video movement data	Position, distance, speed, involvement	Objective athlete evaluation
Team Tactics	Formation and phase data	Shape, transitions, spacing, patterns	Better tactical decisions
Training Analysis	Practice footage	Repetition quality, session trends, improvement areas	Smarter coaching plans
Scouting	Player video profiles	Strengths, weaknesses, highlight evidence	Better recruitment and selection
Reporting	Tagged clips and analytics	Performance reports and shareable highlights	Clear communication with stakeholders

REPORTING & EXPORT CAPABILITIES

- Auto-generated match, training, and performance reports
- Automated highlights and downloadable key-moment clips
- Export of tagged events, athlete metrics, and team analytics
- Shareable dashboard access with role-based permissions
- Scheduled performance summaries for coaches, analysts, scouts, and leadership

09 | PROJECT TIMELINE — 6-WEEK DELIVERY PLAN

As a ready-to-go sports AI product, the system is configured, customized, and deployed for your organization across **six focused delivery sprints**, each lasting one week. This agile approach ensures continuous progress visibility, with a working prototype ready at the end of Week 3.

Sprint	Week	Focus Area	Deliverables	Milestone
Sprint 1	Week 1	Discovery & Sports Configuration	Sport priorities, roles, branding, video workflow, and environment setup	Kick-off Complete
Sprint 2	Week 2	Video Pipeline & AI Analytics	Video upload, processing queue, player/object detection, event tagging	AI Engine Live
Sprint 3	Week 3	Sport Templates & Highlights	Multi-sport configuration, automated clips, highlights, event timelines	Working Prototype
Sprint 4	Week 4	Sports Dashboard Development	Video library, match analytics, player performance, team dashboard	Dashboard Live
Sprint 5	Week 5	Scouting, Reports & Sharing	Scouting module, reports, exports, shareable clips, role-based access	Full Feature Set
Sprint 6	Week 6	Testing, Launch & Handover	End-to-end QA, performance validation, deployment, documentation, training	Final Delivery

10 | DELIVERABLES & ACCEPTANCE CRITERIA

Deliverable	Format	Acceptance Criteria
All-Sports AI Video Analytics Platform	Web Application	Video analytics modules functional and responsive across devices
Video Upload & Processing Pipeline	Platform Module	Match, training, and scouting videos uploaded, organized, and processed
Player & Object Detection Engine	Integrated AI Service	Players, balls, equipment, zones, and sport-specific objects detected
Action & Event Recognition	Integrated AI Service	Sport-specific events tagged and displayed in timelines
Tracking & Movement Analytics	Platform Module	Movement, position, speed, spacing, and tactical metrics generated
Automated Highlights & Clips	Platform Module	Key moments clipped, tagged, downloadable, and shareable
Sports Intelligence Dashboard	Dashboard Module	Coach, analyst, scout, athlete, and admin dashboards rendered
Scouting & Performance Reports	Reports + Exports	Player profiles, team reports, and performance summaries generated
Admin & Role Management	Web Interface	Configurable sports, teams, roles, permissions, and users
Solution Documentation	Document Package	System overview, deployment guide, and end-user manual
Deployment & Hosting Setup	Live Environment	Secure, accessible URL with monitoring and handover completed

11 | WHY SPRECTEX AI — OUR DIFFERENTIATORS

End-to-End Sports AI Expertise	We cover the entire sports video analytics workflow — upload, processing, detection, event tagging, highlights, dashboards, reports, and scouting — in one integrated platform.
Ready-to-Go in 6 Weeks	Our product is ready to deploy. We configure, customize, and launch it for your organization in just six weeks, with a working prototype by Week 3.
All Sports Covered	The platform is configurable for football, cricket, basketball, tennis, volleyball, hockey, rugby, baseball, golf, athletics, swimming, combat sports, motorsports, esports, and more.
Objective Performance Intelligence	AI-generated metrics help coaches, scouts, analysts, and athletes make decisions based on evidence instead of manual review alone.
Enterprise Security & Governance	All video and athlete data is handled under strict confidentiality, encrypted storage, and access-controlled environments. NDAs are signed as standard practice.
Highlights & Reports by Default	Automated highlights, tagged clips, performance reports, and dashboards reduce analysis time and make insights easy to share.
Post-Delivery Support	Every engagement includes 30 days of complimentary post-launch support for fixes, refinements, and technical guidance.

12 | TERMS, CONDITIONS & NEXT STEPS

Licensing & Ownership

Upon project completion and handover, the client receives full rights to use the deployed Sports Video Analytics System and all configuration specific to this engagement. SprecTex AI retains rights to its core proprietary frameworks and pre-trained base models.

Confidentiality & Data Protection

SprecTex AI treats all video, athlete, team, and organizational data with strict confidentiality. An NDA is signed prior to commencement. All team members are bound by confidentiality agreements. No client data is shared, sold, or used for purposes outside this engagement, in line with applicable data-protection regulations.

Change Management

Any changes to scope after Sprint 2 are subject to a formal change request process. Minor changes (under 4 hours effort) are accommodated within the agreed scope. Larger scope additions are agreed separately and require mutual written agreement.

Warranty & Bug Fixing

All delivered features are covered by a 30-day warranty period post-launch. Critical bugs are resolved within 48 hours. Non-critical issues are addressed within 5 business days at no additional charge.

Force Majeure

Neither party shall be liable for delays caused by events beyond reasonable control, including natural disasters, network outages, or government-mandated restrictions. Project timelines will be adjusted mutually in such events.

Governing Terms

This proposal constitutes a commercial offer. A formal contract/Statement of Work will be issued upon acceptance. Disputes are subject to good-faith mediation before any formal legal proceedings.

NEXT STEPS TO PROCEED

- **Step 1:** Review this proposal and confirm agreement on scope
- **Step 2:** Sign the Statement of Work (SOW) and Non-Disclosure Agreement (NDA)
- **Step 3:** Share sample sports footage, preferred sports, roles, and dashboard requirements for configuration
- **Step 4:** Project kick-off meeting scheduled within 48 hours of confirmation
- **Step 5:** Weekly check-in meetings throughout the 6-week delivery
- **Step 6:** Go live with your ready-to-go Sports Video Analytics Platform

READY TO BEGIN?
